

HIVE MIND
MILLINERY

2013 Spring / Summer Collection

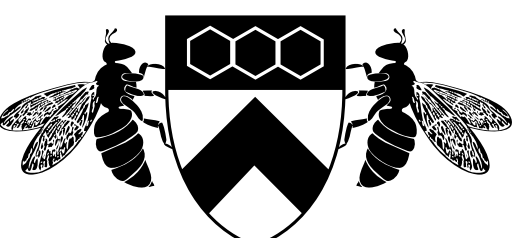

Hive Mind Millinery's
Spring 2013 collection

focuses on the rebirth of millinery for a new generation, offering fun and wearable pieces that can be worn alongside the latest trends. A Hive Mind original creates a focal point for any outfit, pulling in bold shapes and colours and breaking the conforms of millinery etiquette to form something truly unique.

Each hat is lovingly crafted from the finest millinery felts and straws, blocked using elbow grease and steam to form the materials over antique wooden blocks (many dating from the early to mid 1900's), avoiding the use harmful and toxic chemicals traditionally used in the blocking process. Once dried, each hat is then carefully removed from its form. Its brim is then wired and each hat then has its head-sizing ribbon sewn in by hand. It is then hand-finished with a beautiful feature trim.

Each Hive Mind hat is meticulously created to last you a lifetime.
